

Global Software, Inc. Continues to Grow its Certified Partner Channel with West Coast-based RYJAC Computer Solutions

RALEIGH, NC (June 15, 2008) – Global Software, Inc., the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces a partnership with RYJAC Computer Solutions. RYJAC joins the Global’s worldwide Certified Partner Channel to remarket Spreadsheet Server for use with LAWSON® (S3 & M3) and Executive DASH™.

The partnership provides RYJAC’s clients with the ability to retrieve ‘dynamic’ data from within the Excel environment. Powered by Global Software, Inc.’s Excel-based automation technology, the product suite affords end users the opportunity to leverage the familiarity of Excel as a reporting and analysis tool for secure, dynamic and timely data.

“Global Software’s ability to enhance the Lawson application experience via Microsoft Excel has become a defacto standard for Lawson users for many years now,” stated John Bray, Channel Partner Manager for Global Software, Inc. “RYJAC Computer Solutions has strong relationships amongst their committed Lawson user base from which the need for our Spreadsheet Automation tools exists.”

“The technology that Global Software’s spreadsheet automation suite offers is utilized by some of the most strategic accounts in the Lawson ERP market,” added Mitch Kleinman, President for RYJAC Computer Solutions. “We are ecstatic to have the opportunity to provide these solutions alongside our current product offerings for the Lawson community of users.”

About RYJAC Computer Solutions

Any reseller can sell a box, RYJAC takes the time to understand your needs and make alternative suggestions.
